Dear Sebastian,

I don't have an overview of our health care for the elderly in the Benelux

On our international website you can find information about projects and publications of the NIVEL.

www.nivel.eu

You can search our publication-database. For example with the keyword 'elderly'.

One of our most recent books about the dutch healthcare system is:

<http://www.nivel.nl/pdf/HIT-rapport-Netherlands.pdf>

In our catalogue I found a couple of publications

- this thesis about home nursing in europe: <http://arno.unimaas.nl/show.cgi?fid=11351>

- Comparing care: the care of the elderly in ten EU-countries

http://www.scp.nl/english/Publications/Publications_by_year/Publications_2007/Comparing_Care

other websites are:

Netherlands institute for social research

www.scp.nl/english

Website of our Ministry of health

<http://english.minvws.nl/en/>

only in dutch:

Dutch national Atlas of public health [only in dutch, but gives among others an overview of nursing homes in the netherlands]

Nationaal kompas volksgezondheid:

<http://www.vilans.nl>

overview organisations elderly and health [google-search]

I hope I have provided you enough information.

Onderwerp: Elder Care in the Netherlands

Dear Sir or Madame,

I'm doing some research for my master thesis, which deals with health care services in the Benelux. I want to ask you if you might help me. I'm looking for a systematic overview about public health care services dealing with elder care, housing, training and so on...I'm also interested in the main private providers of the Netherlands. I hope you can help me. Everything would be helpful regarding elder care, caregivers (public and private), links to state, federal or university websites, e-books or studies on the issues of aging and/or caregiving.

I would really appreciate your help. Thanks a lot in advance.

Best Regards

Sebastian Eckert
